NOVEMBER 2026 · DAILY CAROUSELS

30 Carousels for 30 Days

One carousel a day, 1–30 November, for Dr. Azka's account. Each one is 6 slides written for clinic-owner doctors (dermatologists, cosmetic dentists, aesthetic physicians): a strong first slide, one useful point per slide, and a closing question that gets real comments from doctors.

Built from: Content Bank for Doctors (10 pillars), your positioning and offer documents, and your keyword + competitor research.
Prepared 31 October 2026

The carousel rules (every one follows them)

Slide	Job	Rule
1 · Hook	Stop a doctor scrolling. Always about patients, bookings, trust, authority or money lost.	Max ~15 words. A specific number, scene or uncomfortable truth. Purple background, big text.
2–5 · Value	One idea per slide. A doctor could screenshot any slide and it still makes sense.	Headline + 1–3 short lines. Every slide must teach, prove or give a step: value per slide.
6 · CTA	Start a real conversation with doctors (not 'comment X to get Y').	A specific, easy question they can answer in one word or number. Their answers become your next content and DM conversations.

> **Why question CTAs (not keyword bait)**
> Questions like 'How fast does your clinic reply after 8 PM?' bring thoughtful comments from real clinic owners. Every doctor who answers is a warm lead you can reply to and DM naturally ('Saw your comment, want me to test your clinic's reply time?'). That's your pilot outreach working from inbound.

Design notes

- Format 4:5 (1080×1350). Purple + white + charcoal, one font family, big headlines.
- Slide 1: purple background, white text. Slides 2–5: white background. Slide 6: soft lavender.
- Put your name or handle small on every slide. Add a subtle '→' on slides 1–5.
- Post the caption shown, then reply to every comment within the first hour.

Month at a glance

Date	Topic (slide 1)	Pillar	Stage
Sun 1 Nov	Your Reel got 50,000 views. Your clinic got 0 new patients.	Views → Patients	TOFU
Mon 2 Nov	I messaged a clinic at 9 PM asking about veneers. They replied 19 hours later.	The Patient Leak	MOFU
Tue 3 Nov	Dermatologists: these 5 posts build more trust than 100 skincare tips.	What to Post	TOFU
Wed 4 Nov	99% of clinics post the same flyers. That's why patients can't tell them apart.	Clinic Branding	TOFU
Thu 5 Nov	If you set up only ONE AI system in your clinic this month, make it this one.	AI Systems	MOFU
Fri 6 Nov	Doctors, you don't need to become an influencer to grow your clinic.	Personal Branding	TOFU
Sat 7 Nov	I'm a doctor. I'm 24. And I chose a different path.	Dr. Azka Story	TOFU
Sun 8 Nov	Doctors: stop starting your videos with 'Hi, I'm Dr...'	Hooks & Scripting	TOFU

Mon 9 Nov	Your Instagram bio is losing you patients in 5 seconds.	Views → Patients	MOFU
Tue 10 Nov	'How much is Botox?' How your team replies decides whether you get the patient.	The Patient Leak	MOFU
Wed 11 Nov	Doctors: delete these 3 words from your clinic's content today.	Compliance	MOFU
Thu 12 Nov	Clinic owners: AI should make your receptionist better. Not replace them.	AI Systems	MOFU
Fri 13 Nov	The fastest revenue in your clinic is already in your patient database.	Retention	BOFU
Sat 14 Nov	Doctors over-explain. The 'one idea per breath' rule fixes it.	Hooks & Scripting	MOFU
Sun 15 Nov	Your 4 doctors shouldn't post the same content.	Clinic Branding	MOFU
Mon 16 Nov	Patients who don't book after your consultation aren't 'no'. They're 'not yet'.	The Patient Leak	BOFU
Tue 17 Nov	Doctors: you already have 100 content ideas. You hear them in clinic every day.	What to Post	TOFU
Wed 18 Nov	If patients can't finish this sentence about you, your brand isn't working.	Personal Branding	MOFU
Thu 19 Nov	Your reminder message might be the reason patients don't show up.	AI Systems	MOFU
Fri 20 Nov	Your before & after photos might be hurting trust.	Compliance	MOFU
Sat 21 Nov	My first agency failed. Here's what I got wrong.	Dr. Azka Story	TOFU
Sun 22 Nov	Two doctors. Same city. Same skills. One is fully booked.	Views → Patients	MOFU
Mon 23 Nov	The day 1, 7 and 30 follow-up every aesthetic clinic should automate.	Retention	MOFU
Tue 24 Nov	Your marketing agency isn't medical. Here's what that costs your clinic.	Clinic Branding	MOFU
Wed 25 Nov	Clinic owners: these 6 tasks should be automated. These 3 should never be.	AI Systems	BOFU
Thu 26 Nov	Why most doctors quit Instagram after 3 months.	Personal Branding	TOFU
Fri 27 Nov	Is your clinic's problem marketing, or follow-up? One number tells you.	Retention	MOFU
Sat 28 Nov	How a busy doctor can film 40 videos in two 3-hour sessions a month.	Hooks & Scripting	MOFU
Sun 29 Nov	What your agency should report every month. (It's not 'we posted 40 Reels'.)	Views → Patients	BOFU
Mon 30 Nov	Content gets you the opportunity. Your systems decide what happens to it.	Signature POV	MOFU

Day 1 · Sun 1 Nov

Pillar: Views → Patients
Stage: TOFU

SLIDE 1/6

Your Reel got 50,000 views.
Your clinic got 0 new patients.

Here's why that keeps happening →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Views measure attention. Not trust.

A patient doesn't book because they saw you once. They book when they feel they know you and trust your judgment.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Viral topics bring the wrong audience.

A trending skincare myth pulls viewers from 40 countries. Your bookings come from 10 km around your clinic.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Check these 3 numbers, not views:

1. Profile visits: curiosity
2. DMs: intent
3. Link taps / calls: action

Dr. Azka · Clinic Growth →

SLIDE 5/6

The fix in one line:

Make content for the patient in your city who is already considering your treatment, not for 'everyone'.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which number do you check first after posting?

Views, followers, or DMs? Tell me below. I read every comment.

Follow for clinic growth, from a doctor

Caption: Views feel good. Bookings pay the clinic. Here's the difference, from a doctor who works on clinic growth.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 2 · Mon 2 Nov

Pillar: The Patient Leak
Stage: MOFU

SLIDE 1/6

I messaged a clinic at 9 PM asking about veneers.
They replied 19 hours later.

By then, I'd booked somewhere else.

Dr. Azka · Clinic Growth →

SLIDE 2/6

Patients message 3–4 clinics at once.

The first clinic that replies helpfully usually gets the booking. Not the best clinic. The fastest helpful one.

Dr. Azka · Clinic Growth →

SLIDE 3/6

After-hours is your highest-intent time.

Patients research after work, after the kids sleep. That's when your inbox is unattended.

Dr. Azka · Clinic Growth →

SLIDE 4/6

What a winning reply looks like:

1. Reply in minutes
2. Ask one question about their concern
3. Offer two appointment times

Dr. Azka · Clinic Growth →

SLIDE 5/6

The fix doesn't need more staff.

An instant first response (human or AI), then your team follows up in the morning.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

How fast does your clinic reply to DMs after 8 PM?

Be honest: minutes, hours, or next day?

Follow for clinic growth, from a doctor

Caption: Most clinics don't have a lead problem. They have a reply-speed problem.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 3 · Tue 3 Nov

Pillar: What to Post
Stage: TOFU

SLIDE 1/6

Dermatologists: these 5 posts build more trust than 100 skincare tips.

Save this before you plan your next month →

Dr. Azka · Clinic Growth →

SLIDE 2/6

1. 'What I'd do for my own skin'

Patients trust the doctor who would follow their own advice. It's personal, specific and honest.

Dr. Azka · Clinic Growth →

SLIDE 3/6

2. Your consultation, in 45 seconds

The unknown scares patients more than the price. Show the room, the process, no pressure.

Dr. Azka · Clinic Growth →

SLIDE 4/6

3. 'Who should NOT get this treatment'

Turning people away signals integrity. It also pre-qualifies your inquiries.

Dr. Azka · Clinic Growth →

SLIDE 5/6

4 & 5. A myth you correct weekly + recovery-day reality

Correct what you hear in clinic. Show downtime honestly. Honesty reduces regret and complaints.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which of these 5 has your clinic never posted?

Tell me the number. I'll share how to film it.

Follow for clinic growth, from a doctor

Caption: You don't need more tips. You need content that makes patients trust you before they walk in.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 4 · Wed 4 Nov

Pillar: Clinic Branding
Stage: TOFU

SLIDE 1/6

99% of clinics post the same flyers. That's why patients can't tell them apart.

Swipe →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Patients don't choose clinics.
They choose doctors.

A logo can't answer a patient's fear. A doctor on camera can.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Flyers say: 'We have a designer.'

Videos of your doctors say: 'We have expertise.'

Dr. Azka · Clinic Growth →

SLIDE 4/6

Build your clinic around its specialists.

4–5 doctors, each with a clear focus and personality. Each one owns a set of topics.

Dr. Azka · Clinic Growth →

SLIDE 5/6

The result:

Patients arrive already knowing which doctor they want to see and why.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

If you removed your logo, could patients still recognise your clinic's content?

Yes or no? Be honest.

Follow for clinic growth, from a doctor

Caption: Your doctors are your brand. Your flyers are not.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 5 · Thu 5 Nov

Pillar: AI Systems
Stage: MOFU

SLIDE 1/6

If you set up only ONE AI system in your clinic this month, make it this one.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Missed-call text-back.

When a call is missed, the patient instantly gets: 'Sorry we missed you, how can we help?'

Dr. Azka · Clinic Growth →

SLIDE 3/6

Why it works:

A patient who can't reach you calls the next clinic within minutes. A text keeps them with you.

Dr. Azka · Clinic Growth →

SLIDE 4/6

What it costs:

Very little, compared with one lost high-ticket patient.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Doctor's guardrails:

Disclose it's automated. No medical advice by text. A human follows up the same day.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

How many calls does your clinic miss in a typical week?

Guess a number. Most owners underestimate it.

Follow for clinic growth, from a doctor

Caption: The simplest automation is often the most profitable one.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 6 · Fri 6 Nov

Pillar: Personal Branding
Stage: TOFU

SLIDE 1/6

Doctors, you don't need to become an influencer to grow your clinic.

Here's what you need instead →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Influencers sell attention. Doctors sell trust.

Different goal, different content.

Dr. Azka · Clinic Growth →

SLIDE 3/6

No dancing. No trends you're uncomfortable with.

Your calm, clear doctor voice IS the brand.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Authority content looks like:

- How you think through a case
- Your treatment philosophy
- Honest answers to real patient questions

Dr. Azka · Clinic Growth →

SLIDE 5/6

The goal:

Patients watching think: 'That's the doctor I want to see.'

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What's stopped you from posting more: time, camera, or not knowing what to say?

One word below 👇

Follow for clinic growth, from a doctor

Caption: Respect, not fame. That's the brand most doctors actually want.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 7 · Sat 7 Nov

Pillar: Dr. Azka Story
Stage: TOFU

SLIDE 1/6

**I'm a doctor.
I'm 24.
And I chose a different path.**

Here's why →

Dr. Azka · Clinic Growth →

SLIDE 2/6

In medical school I noticed something:

Patients search online before they choose a doctor. Nobody taught us how to show up there.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Great doctors were struggling.

Not clinically. With visibility, inquiries, follow-up and bringing patients back.

Dr. Azka · Clinic Growth →

SLIDE 4/6

So I built what I wish they had:

Content that brings the right patients, and systems that make sure none of them are lost.

Dr. Azka · Clinic Growth →

SLIDE 5/6

I didn't leave healthcare.

I found another way to contribute to it.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Doctors: what's one thing medical school never taught you about running a clinic?

I'd love to read your answers.

Follow for clinic growth, from a doctor

Caption: My story, and why I work only with doctors and clinics.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 8 · Sun 8 Nov

Pillar: Hooks & Scripting
Stage: TOFU

SLIDE 1/6

Doctors: stop starting your videos with 'Hi, I'm Dr...'

You're losing viewers in the first second →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Your name is already on the screen.

It's in your profile and your caption. The first second belongs to the patient's problem.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Use this formula instead:

Patient's thought + surprising answer.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Examples:

Derm: 'Your SPF isn't failing. You're using a quarter of what you need.' Dental: 'Veneers don't have to look fake. Here's why some do.'

Dr. Azka · Clinic Growth →

SLIDE 5/6

One rule:

If the first sentence could start any video, rewrite it.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Write the first line of your next video below.

I'll suggest a sharper version for a few of you.

Follow for clinic growth, from a doctor

Caption: The first second decides whether anyone hears your expertise.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 9 · Mon 9 Nov

Pillar: Views → Patients
Stage: MOFU

SLIDE 1/6

Your Instagram bio is losing you patients in 5 seconds.

Line-by-line fix →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Line 1: Who you are + specialty + city

Example: 'Cosmetic Dentist · Dubai Marina'. Also put this in your name field so you're searchable.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Line 2: The result you deliver

'Natural-looking smiles, planned around your face.'

Dr. Azka · Clinic Growth →

SLIDE 4/6

Line 3: Proof

Years of experience, number of cases, credentials. Pick one.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Line 4: One clear next step

'Book a consultation ↓' Not three links and five emojis.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Does your bio pass the 5-second test?

Paste your current line 1 below and I'll tell you.

Follow for clinic growth, from a doctor

Caption: Your profile is your sales page. Most doctors' bios read like CVs.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 10 · Tue 10 Nov

Pillar: The Patient Leak
Stage: MOFU

SLIDE 1/6

'How much is Botox?' How your team replies decides whether you get the patient.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

❌ Reply 1: Just a price.

The patient compares you on price alone and moves on.

Dr. Azka · Clinic Growth →

SLIDE 3/6

❌ Reply 2: 'Please come in for a consultation.'

Feels like a dodge. No reason to choose you.

Dr. Azka · Clinic Growth →

SLIDE 4/6

✅ The reply that books:

A price range + what affects it + one question about their concern + two appointment times.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Why it works:

It's honest, personal and makes the next step easy. Price questions are buying signals, not time-wasters.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What does your clinic currently reply to price DMs?

Share it (no names) and I'll improve it.

Follow for clinic growth, from a doctor

Caption: Price questions are buying signals. Treat them that way.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 11 · Wed 11 Nov

Pillar: Compliance
Stage: MOFU

SLIDE 1/6

Doctors: delete these 3 words from your clinic's content today.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

'Painless'

Patients feel something. Promising nothing breaks trust the moment they feel a pinch. Try 'minimal discomfort'.

Dr. Azka · Clinic Growth →

SLIDE 3/6

'Permanent'

Very little in aesthetics is permanent. Try 'long-lasting', with a realistic timeframe.

Dr. Azka · Clinic Growth →

SLIDE 4/6

'Guaranteed'

Results vary. Absolute claims can create regulatory risk in both the UAE and the US.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Honest wording isn't weaker.

It's more believable, and believable content books more patients.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What's a word you see clinics overuse in their marketing?

Let's build the list together.

Follow for clinic growth, from a doctor

Caption: Compliant content can still sell. Honest content often sells better. (Educational, not legal advice.)
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 12 · Thu 12 Nov

Pillar: AI Systems
Stage: MOFU

SLIDE 1/6

Clinic owners: AI should make your receptionist better. Not replace them.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

AI takes the repetitive work:

First replies, FAQs, booking, reminders, follow-ups.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Your team takes the human work:

Complex questions, anxious patients, in-clinic care.

Dr. Azka · Clinic Growth →

SLIDE 4/6

What changes:

Fewer missed messages. Less burnout. Faster replies, even at night.

Dr. Azka · Clinic Growth →

SLIDE 5/6

How to introduce it:

Tell your team it's their assistant, not their replacement. Involve them in setting it up.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Is your front desk overloaded right now?

Yes, no, or 'only on Mondays' 😄

Follow for clinic growth, from a doctor

Caption: AI + your team > either one alone.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 13 · Fri 13 Nov

Pillar: Retention
Stage: BOFU

SLIDE 1/6

The fastest revenue in your clinic is already in your patient database.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Past patients already trust you.

They've met you, been treated by you and liked the result.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Most clinics never message them again.

No recall, no 'it's time for your next session', nothing.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Segment before you send:

- Lapsed regulars
- One-time visitors
- Unfinished treatment plans
- Consultations that never booked

Dr. Azka · Clinic Growth →

SLIDE 5/6

Then send one personal message per segment.

Reference their last treatment. Offer two times. Only to patients who agreed to hear from you.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Roughly how many inactive patients are in your system?

Under 500, 500–2,000, or more?

Follow for clinic growth, from a doctor

Caption: Before buying more leads, look at the patients you already have.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 14 · Sat 14 Nov

Pillar: Hooks & Scripting
Stage: MOFU

SLIDE 1/6

Doctors over-explain. The 'one idea per breath' rule fixes it.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

You're trained to be thorough.

Instagram rewards clarity.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Every sentence must be one of these:

A claim · A number · An example · A step
If it's none of them, delete it.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Before:

'So basically, today I wanted to talk a little bit about why patients sometimes experience pigmentation after laser...'

Dr. Azka · Clinic Growth →

SLIDE 5/6

After:

'Pigmentation after laser? It's usually one of 3 things. Here's the first.'

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which habit do you have on camera: over-explaining, filler words, or long intros?

Tell me, no judgement.

Follow for clinic growth, from a doctor

Caption: Short and clear sounds more expert, not less.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 15 · Sun 15 Nov

Pillar: Clinic Branding
Stage: MOFU

SLIDE 1/6

Your 4 doctors shouldn't post the same content.

Here's how I split it →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Give each doctor a lane.

Derm: acne & pigmentation · Aesthetic: injectables · Dentist: smiles · Laser: body & hair

Dr. Azka · Clinic Growth →

SLIDE 3/6

Give each doctor a personality.

The calm explainer. The straight-talker. The myth-buster. Let them be themselves.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Why lanes work:

Patients find the doctor who matches their concern, and trust builds faster.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Together, the clinic covers every patient.

One account. Many trusted faces.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

How many doctors are in your clinic, and how many appear in your content?

Write both numbers.

Follow for clinic growth, from a doctor

Caption: Clinic branding means building the brand around your doctors.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 16 · Mon 16 Nov

Pillar: The Patient Leak
Stage: BOFU

SLIDE 1/6

**Patients who don't book after your consultation aren't 'no'.
They're 'not yet'.**

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Why they hesitate:

Cost planning. Fear. A partner's opinion. Timing.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Day 3:

A personal message answering the concern they mentioned.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Day 7:

A short video from the doctor about that treatment.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Day 21:

A gentle check-in plus available times. Then stop.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What happens in your clinic today when a patient says 'I'll think about it'?

Be honest. Most clinics say 'nothing'.

Follow for clinic growth, from a doctor

Caption: Without follow-up, 'not yet' quietly becomes 'never'.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 17 · Tue 17 Nov

Pillar: What to Post
Stage: TOFU

SLIDE 1/6

Doctors: you already have 100 content ideas.
You hear them in clinic every day.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Every question a patient asks twice is a video.

'Does it hurt?' 'When will I see results?' 'Can I wear makeup after?'

Dr. Azka · Clinic Growth →

SLIDE 3/6

Ask your front desk to log FAQs for 2 weeks.

That list is a month of content.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Turn each one into a hook:

'The question every Botox patient is too shy to ask.'

Dr. Azka · Clinic Growth →

SLIDE 5/6

Answer it like you do in consultation.

Not like a textbook. Patient's worry first, medicine second.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What's the question your patients ask you the most?

Drop it below and I'll turn some into hooks.

Follow for clinic growth, from a doctor

Caption: Your clinic is your content library.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 18 · Wed 18 Nov

Pillar: Personal Branding
Stage: MOFU

SLIDE 1/6

If patients can't finish this sentence about you, your brand isn't working.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

'Dr. ___ is the doctor for ___.'

One or two things you want to be known for in your city.

Dr. Azka · Clinic Growth →

SLIDE 3/6

'I do everything' = nobody remembers you.

You can still treat everything. Just be known for something.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Examples:

'The dermatologist for melasma in Dubai'
'The dentist for natural veneers in Miami'

Dr. Azka · Clinic Growth →

SLIDE 5/6

Then everything you post reinforces it.

That's how positioning becomes bookings.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Fill in the blank for yourself below.

'Dr. ___ is the doctor for ___.'

Follow for clinic growth, from a doctor

Caption: Positioning first. Content second.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 19 · Thu 19 Nov

Pillar: AI Systems
Stage: MOFU

SLIDE 1/6

Your reminder message might be the reason patients don't show up.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

'Reminder: appointment tomorrow 3pm.'

Easy to ignore, hard to act on.

Dr. Azka · Clinic Growth →

SLIDE 3/6

48 hours before:

Confirm + prep instructions + 'reply YES to confirm'.

Dr. Azka · Clinic Growth →

SLIDE 4/6

24 hours before:

Friendly reminder + a one-tap reschedule link. A reschedule is better than a no-show.

Dr. Azka · Clinic Growth →

SLIDE 5/6

On the day:

A short nudge + directions/parking. Then track your no-show rate monthly.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What's your clinic's no-show rate?

If you don't know, that's your answer 😉

Follow for clinic growth, from a doctor

Caption: No-shows are often a system problem, not a patient problem.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 20 · Fri 20 Nov

Pillar: Compliance
Stage: MOFU

SLIDE 1/6

Your before & after photos might be hurting trust.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Same lighting.

Different lighting can make a result look better than it is. Patients notice.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Same angle and expression.

A smile in the 'after' photo isn't a result.

Dr. Azka · Clinic Growth →

SLIDE 4/6

No filters. No retouching.

Filtered results can create regulatory risk, and patients feel misled when theirs looks different.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Written consent + context.

Number of sessions, time between photos, and that results vary.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Does your clinic have a written standard for before/after photos?

Yes / No / 'We should'

Follow for clinic growth, from a doctor

Caption: Honest before/afters are both compliant and more convincing. (Educational, not legal advice.)
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 21 · Sat 21 Nov

Pillar: Dr. Azka Story
Stage: TOFU

SLIDE 1/6

**My first agency failed.
Here's what I got wrong.**

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

I tried to help everyone.

Every niche. Every type of business. No focus.

Dr. Azka · Clinic Growth →

SLIDE 3/6

I sold activity, not results.

Posts and edits, without asking whether they brought customers.

Dr. Azka · Clinic Growth →

SLIDE 4/6

I had no proof.

No case studies, no numbers. Just promises.

Dr. Azka · Clinic Growth →

SLIDE 5/6

What I do now:

Only clinics. Only results that matter: inquiries, bookings, returning patients.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What's a mistake you made early in your clinic that taught you the most?

Doctors learn from each other here.

Follow for clinic growth, from a doctor

Caption: Failure taught me more than any course.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 22 · Sun 22 Nov

Pillar: Views → Patients
Stage: MOFU

SLIDE 1/6

Two doctors. Same city. Same skills. One is fully booked.

Why? →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Patients can't judge clinical skill.

They judge clarity, familiarity and safety.

Dr. Azka · Clinic Growth →

SLIDE 3/6

The booked doctor is the familiar one.

Patients have watched them explain, reassure and teach for weeks.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Familiarity = trust before the visit.

By the time they DM, the decision is half made.

Dr. Azka · Clinic Growth →

SLIDE 5/6

You don't need to be louder.

You need to be visible, consistent and clear.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Are you the better doctor, or the more visible one, in your area?

Honest answers only 😄

Follow for clinic growth, from a doctor

Caption: Being good isn't enough if patients can't find you.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 23 · Mon 23 Nov

Pillar: Retention
Stage: MOFU

SLIDE 1/6

The day 1, 7 and 30 follow-up every aesthetic clinic should automate.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Day 1: Aftercare check

'How are you feeling today?' Good care, and it catches problems early.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Day 7: Progress

Answer questions, reassure, share what to expect next.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Day 30: Result + next step

Ask how they feel about the result. Invite a review. Suggest the next session.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Automated ≠ impersonal.

Written in your clinic's voice, with a human reply when needed.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which of these 3 does your clinic already do?

Day 1, 7, 30, or none?

Follow for clinic growth, from a doctor

Caption: Good care and good retention are the same thing.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 24 · Tue 24 Nov

Pillar: Clinic Branding
Stage: MOFU

SLIDE 1/6

Your marketing agency isn't medical. Here's what that costs your clinic.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

No fact-checking.

Claims get posted that a doctor would never say.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Generic captions.

Your content sounds like every other clinic's.

Dr. Azka · Clinic Growth →

SLIDE 4/6

No understanding of patient fear.

They market treatments like products, not medical decisions.

Dr. Azka · Clinic Growth →

SLIDE 5/6

5 questions to ask your agency:

Who checks medical accuracy? What are your sources? How do you measure bookings? Who approves claims? Do you know our local rules?

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Has your agency ever posted something you had to delete?

You're not the only one.

Follow for clinic growth, from a doctor

Caption: Medical content needs medical review.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 25 · Wed 25 Nov

Pillar: AI Systems
Stage: BOFU

SLIDE 1/6

Clinic owners: these 6 tasks should be automated.
These 3 should never be.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Automate:

1. First reply to inquiries
2. FAQs
3. Booking

Dr. Azka · Clinic Growth →

SLIDE 3/6

Automate:

4. Reminders
5. Follow-ups
6. Review requests

Dr. Azka · Clinic Growth →

SLIDE 4/6

Keep human:

1. Clinical advice
2. Complaints
3. Sensitive or emotional conversations

Dr. Azka · Clinic Growth →

SLIDE 5/6

The order I'd install them:

Week 1: missed-call + DM reply ·
Week 2: booking + reminders ·
Week 4: follow-ups, reactivation, reviews

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which of the 6 does your clinic still do manually?

Pick a number.

Follow for clinic growth, from a doctor

Caption: Automate the repetitive. Protect the human.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 26 · Thu 26 Nov

Pillar: Personal Branding
Stage: TOFU

SLIDE 1/6

Why most doctors quit Instagram after 3 months.

And how to stop it →

Dr. Azka · Clinic Growth →

SLIDE 2/6

Months 1–3 feel slow.

Trust compounds. Early numbers look small.

Dr. Azka · Clinic Growth →

SLIDE 3/6

They measure the wrong thing.

Followers instead of profile visits and DMs, which move first.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Content depends on their mood.

No system, no batch filming, no plan.

Dr. Azka · Clinic Growth →

SLIDE 5/6

The fix:

Plan monthly, film in batches, judge by inquiries, and commit to 6 months.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

How long have you been posting consistently?

Never / under 3 months / 3+ months

Follow for clinic growth, from a doctor

Caption: Consistency is a system, not willpower.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 27 · Fri 27 Nov

Pillar: Retention
Stage: MOFU

SLIDE 1/6

**Is your clinic's problem marketing, or follow-up?
One number tells you.**

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Inquiry → booking rate

Booked appointments ÷ total inquiries.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Many inquiries + low booking rate

= a follow-up problem. Fix replies and follow-up first.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Few inquiries + high booking rate

= a visibility problem. Invest in content.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Most clinics fix the wrong one.

They buy more leads when they're leaking the ones they have.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Do you know your inquiry → booking rate?

Share a rough % if you do.

Follow for clinic growth, from a doctor

Caption: Diagnose before you spend.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 28 · Sat 28 Nov

Pillar: Hooks & Scripting
Stage: MOFU

SLIDE 1/6

How a busy doctor can film 40 videos in two 3-hour sessions a month.

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Scripts are written before you arrive.

You don't think about content between sessions.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Teleprompter + 3 outfit changes.

One session looks like a whole month.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Easy topics first, B-roll last.

Warm up on simple talking heads; finish with clinic footage.

Dr. Azka · Clinic Growth →

SLIDE 5/6

Everything else is done for you.

Editing, captions, posting, tracking.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

How much time do you spend on content each week right now?

Hours, or 'none at all'?

Follow for clinic growth, from a doctor

Caption: Six hours a month. That's the whole commitment.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 29 · Sun 29 Nov

Pillar: Views → Patients
Stage: BOFU

SLIDE 1/6

What your agency should report every month.
(It's not 'we posted 40 Reels'.)

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Content:

Views, profile visits, saves, follows.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Patients:

Inquiries, booked consultations, inquiry → booking %, new patients.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Systems:

Reply time, follow-ups recovered, reactivated patients, no-show rate, reviews.

Dr. Azka · Clinic Growth →

SLIDE 5/6

If they only report likes,

you don't know whether your marketing works.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

What does your current marketing report show you?

Likes, leads, or nothing at all?

Follow for clinic growth, from a doctor

Caption: Activity isn't results. Ask for the numbers that pay the clinic.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.

Day 30 · Mon 30 Nov

Pillar: Signature POV
Stage: MOFU

SLIDE 1/6

**Content gets you the opportunity.
Your systems decide what happens to it.**

→

Dr. Azka · Clinic Growth →

SLIDE 2/6

Content without systems:

Attention arrives, messages go unanswered, patients book elsewhere.

Dr. Azka · Clinic Growth →

SLIDE 3/6

Systems without content:

A perfect booking machine with nobody entering it.

Dr. Azka · Clinic Growth →

SLIDE 4/6

Together:

Content → inquiry → instant reply → booking → follow-up → returning patient.

Dr. Azka · Clinic Growth →

SLIDE 5/6

That's what I build for clinics.

Doctor-led content + AI systems, as one patient journey.

Dr. Azka · Clinic Growth →

SLIDE 6/6 · CTA

Which side is weaker in your clinic right now: content or systems?

One word below.

Follow for clinic growth, from a doctor

Caption: This is the philosophy behind everything I do.
Ending line for the caption: Save this for your next team meeting, and follow for more clinic growth from a doctor's perspective.
